"BORDER RAIDERS"—Pathe Feature

HEARST GOVERNMENT IS DEFEATED

Toronto, Oct. 21.—In one of the most remarkable elections Ontario has ever experienced, the Hearst Conservative government went down to defeat yesterday. Sir Wm. Hearst and all but two of those of his cabinet who were not elected by acclamation went under in the landslide, and of the strong following of 70 members who sat behind the prime minister in the last legislature only some 25 members remain. The Liberals, despite their win of five seats in Tory Toronto, stand in the new legislature practically as they were in the last house.

The largest single party in the new house will be that of the farmers, but no party has enough seats to enable it to carry on the functions of government. The only solution is a coalition government or a new election. The latest returns show the standing of the various parties as follows: United Farmers 45, Liberals 28, Conservatives 25, Labor 11, Soldier 1, Independent Liberal 1.

Victory Loan Objective for This District is \$100,000

The Victory Loan committee was formed last Wednesday afternoon. There was a small attendance at the meeting but those present listened with interest to the explanation given by Mr. L. M. Roberts regarding the reasons and objects of the 1919 Victory Loan. The following officers and committee were appointed to handle the campaign for this district: Chairman, T. D. Lewis; secretary, R. K. Peck; committee, Jas. McKinney, R. S. Law, J. R. Watt, Chas. F. Leeds.

The appointment of canvassers was left with the chairman and secretary, who will be pleased to hear from anyone desiring to help in this work.

The objective is to be \$100,000 which compared with the \$400,000 subscribed last year would appear to be easily obtained.

The secretary can be seen at any time at the office of Fraser & Peck.

Arrangements have been made with the banks so that bonds can be purchased there. The canvassers will commence their work sometime next week, and it is hoped that everyone will treat them as liberally as possible.

No Trace of Influenza on the Prairies

Influenza has not made its appearance anywhere in western Canada yet this fall, according to Dr. C. S. Mahood, medical health officer of Calgary. He says that the city was never in as good health as this year since his wiping out of the scarlet fever wave, the city is assuming a very healthy appearance.

Questioned regarding the possibility of people catching the "flu" a second time, Dr. Mahood said that such a case has never been known. He said that Dr.

Evans, of Chicago, and Dr. Rosene, of Baltimore, both authorities on influenza, have stated 70 per cent of the population of America are now immune from influenza—those who had it before, and those who always were and always will be immune.

Many people have made anxious inquiries of their doctors whether or not they are liable to catch the "flu" again this winter. For the better part, the doctors are advising their patients that they need not entertain any fears for influenza will not come a second time. It is admitted that relapses occur after a period of several weeks, or even a month, but it has never been known for a person to take the "flu" a second time.

Court of the Six-Shooter

Betty Compton, screen favorite, and George Larkin, portrayer of strong, virile roles, are the principals in the stirring drama, "The Border Raiders," to be shown at the Rex theater next Friday and Saturday. It is a play of swift action and gripping climaxes produced by Diando and distributed as the first of the Pathé Program Features.

The border, about which the action takes place, is the line between the U. S. and Mexico, and in time, the romantic period, not so very long ago, when the six-shooter was the accepted court of argument.

Records of the United States secret service show how desperate a task—calling for supreme courage—it was to stamp out cattle rustling and opium smuggling. And with all of these the play has to do. It is full of tense surprises, tense, breathless moments and—love triumphs!

NOTICE TO CREDITORS AND CLAIMANTS

Notice is hereby given pursuant to an order made as provided for by section 15 of the Municipal Co-Operative Hail Insurance Act, that all persons having claims against the Hail Insurance District established under the provisions of section 328 of The Rural Municipal Act, and carrying on the business of Municipal Hail Insurance during the years 1914 to 1918 inclusive, are required to deliver or send to the undersigned Administrator, on or before the 20th day of November 1919, a full statement of their claims duly verified and any securities held by them, and that after the said 20th day of November 1919 I will distribute the assets of the said Hail Insurance District among the parties entitled thereto having regard only to the claims of which I shall have received notice.

One taste is enough to convince you that it's useless to look elsewhere for its superior. Equals it may chance to have, but superiors, never. We have Ice Cream in all the most delicious flavorings packed in our freezers ready to serve by the pint, quart or gallon. How much can you use today?

J. B. BOESE License No. 9-2089

British Premier On Needs of the Hour

LONDON.—In a speech at Sheffield, Premier Lloyd George urged the need of greater production of food for the people of the nation. He pointed out that the national debt was nearly £800,000,000. He said wages had doubled, the hours of work were curtailed and the standard of living was higher than ever, but that that standard should not be preserved by a concurrence of trifling or the decisions of labor conference.

The Premier called upon the British people to see that the peace was a real peace.

"It is not the British habit," he said, "to nag, harry, irritate, and trample a bleeding foe. So long as Germany conforms to the conditions we have laid down, we must give her a clear chance to lead a peaceable and honorable existence."

Some Steamers Still on Strike
New York.—Strike members of the International Brotherhood of Teamsters, Chauffeurs and Helpers, most of whom are employed by the American Railway Express company, voted to remain on strike after a meeting attended by 2,500 in Cooper union, while other teamsters engaged in transporting milk in the city decided to accept an increase of \$5 and \$6 a week, offered by the milk companies, instead of the \$10 weekly increase demanded by the men.

The express drivers' vote was practically unanimous, only one negative vote being recorded.

Contradictory Reports
Stockholm.—Reports regarding Pakov are contradictory, some declaring that the town was taken by Estonians, and others that its capture had been delayed owing to the destruction of the railroad tracks. The station, both to the south and north, according to advice received, are known to be in the hands of the White forces.

Riga More Normal
Helsingfors.—Conditions are becoming more normal in Riga following the German Russian attempt to capture the city, it is stated in dispatches received here.

Most of the newspapers are again appearing. Supplies are short, however, and prices of commodities are soaring.

Print Paper from Prince Rupert
Prince Rupert, B.C.—Thirteen carloads of paper made at Ocean Falls and consigned to the New York Times, are on their way east from Prince Rupert. This paper was made from pulp furnished by spruce logged on the Queen Charlotte Islands, during the airplane industry which concluded with the signing of the armistice.

Closing In On The Bolshevik Forces

LONDON.—In official quarters here it is declared that General Yudenich, commander of the northwestern Russian force advancing on Petrograd, is working in close understanding with Admiral Kolchak, head of the all-Russian government, and General Denikin in a combined effort against the Bolshevik armies in Siberia, southern Russia and on the northwestern front.

General Yudenich's troops, which are fully equipped now by the allies, with whom the general is in constant touch. He, as well as General Denikin and Admiral Kolchak, it is declared, has consistently rejected all overtures from Germany and maintained their connection with the allies.

In connection with the report from Germany that Great Britain had invited Germany to co-operate in the coercion of Soviet Russia, the correspondent of the Associated Press learns that a communication of this nature was made to Germany by the peace conference.

Word of the request to Germany to participate in a blockade of Soviet Russia came first from Berlin, and later was followed by reports from neutral states intimating that they had been requested to join in a blockade. No definite announcement of such contemplation has, however, been made from Paris or London, causing adverse newspaper comment. It was stated in Paris that the United States did not join with the entente powers in asking Germany to co-operate in such a blockade.

Canadians Anxious To Come Home

Great Britain Is No Place for the
Holiday-Maker as Premier

Ottawa.—The Department of Immigration and Colonization has received by cable a warning from England that there are thousands of Canadians on the other side anxious to return home, but unable to secure return passage for at least six months. It is said that this situation is being accentuated by the arrival of visitors from Canada. When the cable was sent from London, it was said that there had been resort to the weekly allowance was: Butter, 1 ounce; sugar, six ounces; coal, 100 pounds; meat, 40 cents' worth.

Canadians who contemplate a visit to the mother country during the next few months should take into consideration the impossibility of returning within a few weeks after arrival there.

Want Prohibition in France
Paris.—The fight against alcohol will be a leading plank of the national platform in the forthcoming elections. Members are demanding the absolute suppression of alcohol, and the walls of Paris and the larger cities are already covered with these demands, and pamphlets and posters have been mailed by the hundred thousands to hotels and individuals in the provinces.

"If France does not suppress alcohol, alcohol will suppress France," is the slogan of the day. The slogan, and add, "Three million individuals live upon the traffic of alcohol; thirty-five million suffer and die from it."

Pensions Laws Give Little Complaint
Winning.—Lieut.-Colonel John Thompson, chairman of the Pensions Board, Ottawa, and Major Stanley Corcoran, commissioner, arrived in Winnipeg for a routine inspection of the district pension offices here. The commissioners have inspected the district pension offices from Victoria, B.C. to Winnipeg, and report that there was very little complaint as to the manner in which the pensions law was administered in the West. In practically all instances they found that a proper explanation of the regulations eliminated the reasons brought forward for the complaints.

Want Stamped Cheques
Winnipeg.—The Federal Government is being asked to arrange for an issue of cheques for the use of chartered banks which will bear the two-cent stamp.

Land For Soldiers

2,700 Quarter Sections In All for Sale
By Public Auction This Fall

Ottawa.—Through the intervention of the Soldier Settlement Board, school lands in Saskatchewan and Alberta, aggregating 42,000 acres, have been withheld from sale by auction, in order to be made available for settlement by returning soldiers. Arrangements have been completed to advertise these lands, 2,700 quarter-sections in all, for sale by public auction this fall. The lands are situated in the Winnipeg, Brandon, Assiniboia, St. Rose de Lac districts in Manitoba, and the Regina, Wadena, Prince Albert and Wakarusa districts in Saskatchewan.

Double Tragedy Feared
Edmonton.—Grave concern is felt in Peace River over the report brought in from Bear Lake by a half-breed that he had found evidence of a tragedy out on the ice of Bear Lake. It is feared that two well-known young men of Peace River, Scotty Lettich and Duncan Stewart, are drowned.

Valuable Salmon Stock
Prince Rupert, B.C.—The Skeena River salmon pack has been completed, and the season's value is set at \$407,900. The sockeye pack was a good deal larger than usual, the total gross 180,000 cases, which at \$13 a case is valued at \$2,340,000.

Hungarian Peace Pact Delayed

No Government in That Country
With Which Supreme Council
Can Deal

Paris.—The supreme council and the peace conference will probably not end officially until after the Hungarian treaty is concluded, but only a few members of the supreme council or governments will remain to complete the work.

The entirely new set of delegates will probably be instructed to negotiate the treaty with Turkey when the allied and associated powers learn whether the United States will accept a mandate for Turkey or a partition thereof, and are able to agree on the disposition of the Turkish territory.

The Bulgarian delegation is now on its way back to Paris and there is every indication that the Bulgarian treaty will be disposed of shortly. Only the Hungarian treaty remains to be negotiated.

There is no government in Hungary which the conference can deal, but the treaty draft is practically complete in Paris and should there be no recognized government in Budapest before December 1, arrangements will probably be made to have a few delegates remain in Paris to negotiate a treaty with Hungary, whenever a satisfactory government is established.

No Dealings With Bolsheviks

Supreme Council Proposes Shutting
Off Russia From Intercourse

LONDON.—The text of the note of the supreme council inviting Germany to participate in the blockade of Russia as published by the Daily Herald, and reprinted by the Daily Herald, shows that Sweden, Norway, Denmark, Finland, Estonia, Latvia, Lithuania, Mexico, Chile, Argentina, Colombia and Venezuela have been invited to initiate measures to prevent their nationals from engaging in any trade whatever with Bolshevik Russia. The measures are:

1. Refusal of permission to sail to every ship bound for a Russian Bolshevik port, and the closing of all ports to ships from Bolshevik ports.
2. Similar regulations to be adopted with regard to all goods destined for Russian ports by another route.
3. Passports will be refused to all persons, to or from Bolshevik Russia. Isolated exceptions may be made by agreement of the allied and associated powers.
4. Measures will be taken to hinder bankers from granting credit to commercial undertakings in Bolshevik Russia.
5. Every government will refuse its navy facilities of interest to any vessel sailing to or from Bolshevik Russia, whether by post or wireless telegraph.

Marshal Foch added the following instructions to the allied and associated powers: "The British and French men-of-war in the Gulf of Mexico will continue to maintain their position and to detain, from the moment they come in sight, any ships bound for Bolshevik ports."

The probable to the note declares that the open enmity of the Bolsheviks is directed against all governments and that programs of international evolution circulated by them constitute a grave danger to the national security of all the powers.

Asquith to Re-enter Politics?
LONDON.—Former Premier Asquith's speech at the National Liberal club is regarded by commentators of different shades of opinion as a plain intimation of his desire to return to the House of Commons.

The Morning Post says his little band of followers there want him back badly, but the very few safe seats they hold are secured by the bench men who cannot be spared. Independent Liberals, the paper adds, are very anxious to see him return to their favor.

Temperance and Sugar Shortage
New York.—Prohibition has resulted in the consumption of enormous quantities of sugar and soft drinks, and it is responsible in large part for the present shortage of sugar. Arthur Williams, federal food administrator, stated.

"The increased sugar consumption of the country so far this year is estimated to have increased 300,000 tons over the consumption of the first nine months of 1918," he added.

Winnipeg Teachers Given Advance
Winnipeg.—Winnipeg teachers of approximately fifty per cent. have been decided upon by the local school management committee. The first January 1 next. Rules governing salaries during the probation period were also adopted.

Tragedy of the Sea is Revealed

Survivors Say Officers Were Killed in
Accident; Rescuers Speak of
Seeing Fight

Philadelphia.—A tragic tale of the sea was unfolded here by four survivors of the British schooner Onato, picked up while drifting helplessly, and revealing the handiwork of the Zirkel. The survivors, all from Newfoundland, said the captain of the schooner, Ernest Smith, was crushed to death by the shattering of the ship's cargo.

The stories, however, do not agree with that told by Captain Sullivan, master of the Zirkel, which arrived here, and all four men were locked up at the Gloucester immigration station on charges of mutiny. They will be turned over to the British consul.

The survivors, Douglas Nichol, Thomas Molton, Lorenzo Ash and Ernest Friezaard, all told the same story, except as to some of the details, which the authorities said were conflicting. They declared their officers met an accident and death while the schooner's crew was battling to save the craft in a terrific gale.

Captain Sullivan said the ship was bound for Onato, Spain, with a cargo of salt. Officers of the Zirkel assert that the vessel sank shortly after the men were taken off.

Clemenceau Ministry Is Sustained

By Large Majority on Chronological
Order of Elections

Paris.—The Clemenceau ministry was sustained in Chamber of Deputies by a vote of 324 to 132. The premier thus victoriously emerged from the bitterest and best organized assault which has been made since the fall of the cabinet. The premier, the chamber adopting the cabinet's policy on the chronological order of the elections, placing the legislative elections first, on November 16, and the senatorial and municipal elections in that order.

For the first time, Aristide Briand, the former premier, came out openly in leading the opposition forces, but M. Clemenceau's majority was the largest he has ever received where the question of confidence was presented.

Presbyterians Ask For Reform Laws

Ottawa.—Three resolutions dealing with the present day reform were passed at the session of the Ottawa Montreal Presbyterian synod. The first was the endorsement of the four "no's" of the Ontario Temperance committee. The second asked the Dominion government to make permanent legislation of the war time measure prohibiting the manufacture of liquor in Canada, its importation and the inter-provincial trade in it. The third asked the government to include race-track gambling with other offences in the criminal code.

Check for the Consumer

Ottawa.—New regulations governing the lobster packing industry of the Maritime Provinces are provided for in an amendment to the Meat and Canned Foods Act, of which notice has been given by the government. The regulations also made for the correct labelling of all cans of fish or shell fish imported into Canada, and other particulars, including weight of contents, place of origin, and the names of the packers, and also of the importer.

French Want Canadian Houses
London.—The secretary of the Export Association of Canada, states that the association is consulting with the ministry of health for a supply of ready-made houses on the Canadian frontier in connection with new government housing scheme, and a definite decision may be expected within a few weeks. There is a growing demand for these houses from France.

C.M.A. Extending Organization
Toronto.—In pursuance of an intensive policy of organization, and with the object of permitting greater co-operation among members more or less closely located the Canadian Manufacturers' Association has divided into five divisions, each of which will have a separate chairman, vice-chairman and executive.

W. N. U. 1286

Work Ready For League of Nations

Wants a Pool to Indemnify Allies

French Senate Adopts Resolution
Asking for Further Disarmament

Paris.—The senate adopted the resolution, which has already been passed by the Chamber of Deputies, asking the government to suggest to the allies further measures for the disarmament of Germany, and another resolution suggesting that France be given a prior claim in the distribution of reparation payments made by the Germans.

The chamber adopted a resolution which, after expressing confidence in the spirit of equity and justice of the allied and associated powers, asks the French government to negotiate with them for the establishment of a common pool of indemnities to be distributed among the allies in proportion to the number of the participants in the great war.

Huns Are in a Quandary

Germans Are Not Keen on Blockade
of Russia, Soviets

Berlin.—Suggestions from the entente that Germany join in the blockade of Soviet Russia, have not yet been officially considered by the German cabinet, but have inspired a question indicating the government's answer will neither be an unconditional refusal nor an indication of assent. It is said that the Germans will suggest the installation of an international commission to deliberate on the proposition which unquestionably found Germany unprepared and places her in a quandary.

Hauling Wheat Across the Line

Winnipeg.—It is reported here in grain circles that farmers in Manitoba and Saskatchewan to a distance of 40 and 50 miles north of the international boundary line, are this fall hauling large quantities of wheat across the United States line, market prices and receiving 60 cents or 70 cents more a bushel than it would be possible if they sold their wheat in Canada.

This international trade has assumed such proportions that a number of elevators located at southern points of the two provinces are being closed up as the amount of business they are receiving does not warrant the expense of keeping them open.

Prohibition Enforcement Bill Signed

Washington.—The prohibition enforcement bill was signed by Vice President Marshall and Speaker Gillette for immediate transmission to President Wilson. The President has ten days from the time it reaches the White House to sign it. Announcement has been made at the White House that the bill would be referred to Attorney General Palmer for an opinion as to its constitutionality before any executive action was taken.

Alaskan Gold Duet

Seattle.—Wash.—With \$100,000 in gold dust arrived here, the power schooner Onato arrived here from Kuskokwim River ports, Alaska, bringing that district's season clean-up of placer diggings.

Demand Surrender Of German Vessels

Paris.—The supreme council approved the text of a notification to the allies of the neutral powers, which will be asked to join the League of Nations, setting forth the conditions under which they may adhere to the league.

The council also approved the draft note to be sent to Germany demanding the surrender to the allies and associated powers of German ships which were turned over during the war to companies in the Netherlands, and which were in German hands at the time of the armistice.

The note declares that the sales are void because of their irregularity. Another draft note to Germany, regarding German representations on the subject of the territory of Memel, on the eastern Baltic coast, is also being prepared. The allies decline to discuss the destiny of Memel with Germany which renounced its rights over it to the treaty of Versailles.

The solution of this question, it is stated, concerns only the allied and associated powers.

Up to M.H.H.
England, Ont.—"The town is yours, point it any color you like," this was the text of a sign which greeted the presence of Versailles, and expressed the spirit of welcome extended the Prince by the populace people.

No Chance For Profiters

British Courts Take Prompt Action
To Regulate Prices

London.—Following are typical examples of the decisions of the provisioning committees this week: Twenty-five per cent. too much profit was charged to Prof. Toot, of Manchester University, for suits for his sons. Twenty-five per cent. too much profit was charged also on a pair of trousers. Another firm of military tailors was ordered to refund 16 pence to a purchaser of a medal bar bought for two shillings. Many complaints have been postponed for further enquiry.

One Alleged Fall in the Profiteering Act

One alleged fall in the profiteering act is that the onset of complaint is now being made by the public. It is said that the public is now beginning to consider the recovery of overcharges in individual payments. A church bazaar, owing at Wimbledon, significantly states that no article will be sold above shop prices.

R.N.W.M.P. Headquarters to Go East

Ottawa.—On a bill amalgamating the Dominion and the Royal North-west Mounted Police, Sir James Loughheed in the senate stated that the headquarters of the organization would be located in the east. A large portion of the force would be continued west of the lake. Senator Casgrain asked if they could be put on trains and brought east to serve in case of riot.

Sir James: They will be a mobile body.

The bill was given a second reading.

May Abandon U.S. Tour

London.—It is quite possible that the visit of the Prince of Wales to the United States may be abandoned, owing to the prevalence of influenza, says the Daily Mail. The King has been in communication with the president, and the bill would be referred to Attorney General Palmer for an opinion as to its constitutionality before any executive action was taken.

British Land Reinforcements

Constantinople.—Two British transports have landed reinforcements on the Turkish Asiatic coast for the British contingents operating against the rebels.

FRIDAY, OCTOBER 24, 1919

The U. F. A. have been demanding proportional representation in the provincial legislature. Premier Stewart, in response to heckling from U. F. A. members during an address in the Cochrane campaign, on Saturday last, assured his hearers that before the next provincial elections proportional representation would be in force in Alberta. He also asserted that such a measure would result in a big increase in representation from the cities, as they are now very much under-represented in proportion to the rural districts.

"The Man in the Moonlight"

The little French Canadian village of St. Pollinaire was eager in expectation of the wedding feast that was to follow the marriage of pretty Rosine Delorme to Sergeant O'Farrell of the Royal Northwest Mounted Police.

Rosine and her old father were downcast. Louis, the wayward brother of the bride-to-be was in prison at Fort Macgure. The name was linked with that of Rosignol, the Nightingale, a man feared, shunned and hunted.

But the fatal heart was never graced with the laughing, happy villagers.

As the guests were about to partake of the genial hospitality of Pierre Delorme a courier halted a four-wheeled horse through the street of the little village and threw the animal to his knees before the door of the house in which Rosine awaited the bride.

announcement of her wedding vows. The courier sealed orders for Sergeant O'Farrell.

The orders, from the divisional police commandant, required him to track down and bring in, dead or alive, Rosignol and Louis Delorme.

It was beyond O'Farrell's code of honor to marry the girl and then hunt down her brother, so the ceremony was postponed.

Another faded horse swayed through the village street. On its back sat jauntily a tattered figure of a man. He dismounted, bowed low to the wedding guests and explained that he was a hungry man. It was a joy to Pierre Delorme to feed the hungry, to do what he could to heal the sick, and to smooth the path of the righteously.

The stranger sought out Rosine and spoke to her. He was no other than Rosignol, the Nightingale.

What he told her and what it signified is to be vividly depicted Monday night only at the Rex theater when Monroe Salisbury comes with his latest Universal success, "The Man in the Moonlight."

Why You Should Buy Victory Bonds

Because

You will get 5½ per cent interest on your money.

You will get full value for your money practically at any time you may require it.

You will have an investment backed up by the entire resources of Canada.

You will have a guarantee as safe as any greenback.

You will be helping Canada to do your banking temporarily for you.

You will be taking advantage of your good fortune to subscribe to a Canadian Victory Loan.

Are you saving? Victory Loan is coming.

HELP THE VICTORY LOAN

The Victory Loan campaign in Southern Alberta is going with a swing. Reports from the central committee in Calgary say that the capitalists have completed their organization and that the Loan is meeting with a far better reception than had been anticipated. There will be a great deal of money coming "over the top" on this Loan and it is to be hoped that this district will do its share and will make at least as good a record as last year.

Victory Loan 1919 is going to be very popular indeed. In the first place, the security is excellent and the investment is a better one than will probably be obtained by any other means. A hundred thousand dollars of 5½ per cent interest at par is some thing that was not dreamed of before the war and will not be again. For this reason, there is little doubt that the bonds will go above par on the market almost at once. They are good and that anyone who buys them during the campaign will be able to sell them at a profit thereafter. That, at least, is the history of the previous bond issues and there is no reason why it should not be the history of this one.

Southern Alberta is especially interested in the success of the Victory Loan because the money is to be used for the re-establishment of our soldiers and the financing of crop and other similar ventures. Better of agricultural country Southern Alberta will not only direct benefit out of a Victory Loan than most other portions of Canada and it is therefore all the more apt to support the loan to the best of her ability.

Organization and work are progressing in this district and in others and public opinion, their local canvassers by exhibiting promptly and judiciously, and by convincing them of the value of the loan. The selling of the bonds will be continued until November 15.

"I Hope Every City and District Will Win My Flag"

When Edward, Prince of Wales—eager, bright-eyed, smiling and sincere—arrived in Canada in August, and when he voiced his great admiration of the wonderful achievements of Canadians, on the fields of battle and at home, once again we were thrilled with joyous pride.

He asked concerning Canada's reconstruction programme, and when he was told of the Victory Loan 1919, he graciously consented to the use of his Coat of Arms on a flag, which is to be the prize of honour for districts securing their quota in the loan.

In dedicating "The Prince's Flag" at Ottawa on Labor Day, His Royal Highness said in part—

"It is a great joy to me to be associated with the loan, which is the bridge between war and peace, and which is finishing of the job."

"I hope every city and district will win my flag."

Striking, and beautiful in design, this flag will form not only a unique memento of Victory Year, but a lasting and outstanding souvenir of the visit of His Royal Highness—a visit which will remain as one of the most memorable events in Canada's history.

The reproduction above shows the design of the flag. The body is white, the edge red; in the upper left hand corner is the Union Jack, and in the lower right hand corner the Prince of Wales' Coat of Arms.

The flag is made in two sizes, 4 feet 6 inches by 9 feet for small cities, towns and villages, and 7 feet by 13 feet 6 inches for cities of over 10,000 population.

Canada has been divided into canvassing districts by the Victory Loan Organization. Each city forms one district. Other districts have been determined according to population.

Each of these canvassing districts has been allotted a certain amount in Victory Bonds to sell. To win the Prince's Flag, therefore, a district has to sell its allotment. That is the one and simple condition.

Anticipating that many districts will buy far beyond their allotment, the organization decided that for each twenty-five per cent. excess of the quota one Prince of Wales' Crest be awarded. Thus the workers in a district doubling its quota will be the proud winners of four small crests for their Honour Flag. These crests will be sewn to the flag. The Prince's Crest—

the three ostrich plumes—is shown at the top of the coat of arms.

To every organization with fifty or more employees, where seventy-five per cent. of the enrollment invests a total of ten per cent. of the annual payroll in Victory Bonds, a supplementary Prince of Wales Flag in smaller form—48 inches by 34 inches—will be awarded.

The allotment for each district has been carefully considered, and is based on a conservative estimate of the purchasing power of the district.

Your district can sell its allotment and thus win the Prince's Flag, provided each person does his or her share.

You will gladly do your part and encourage your neighbour to do his.

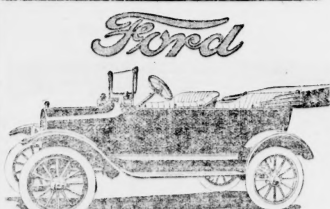

Remember YOUR purchase may be the one that decides whether or not your district is to be the proud possessor of the Prince's Flag.

The Prince's Motto is "I Serve"
Will You also Serve?

Victory Loan 1919

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada.

"A Joan of Arc Machine"

"SHE withstood everything in the field and above all was, and still is, the last and only car to survive until the creation of hostilities."—Extract from letter received by Ford Motor Company from a British Soldier, in Africa.

Over shell-corn mounds, through water-soaked fields, second only in the tanks in its power to climb dunes and crater holes, the Ford car made a world famous record in the fighting area of the great war. In France, Germany, Italy, Belgium, Russia, in letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords
In Italy - 850 cars out of 1,000 were Fords
In Egypt - 900 cars out of 1,000 were Fords
In Mesopotamia - 950 cars out of 1,000 were Fords

The Ford power plant that established this world-wide record in every theatre of the war remains the same. It will be in the Ford you buy.

Each 1919 model is "stronger than the others" because it has the Ford power plant.

McClary's Kootenay

TOP, bottom and all four sides of the Kootenay oven are evenly heated. That is why it is so famous as a dependable baker. There is a thermometer, too, to tell whether the heat is right or not.

No range is quite so easily managed. Duplex gates close the stove at a single turn. Burned cooking-top never needs blackening. Nickled steel oven walls are kept clean with a damp cloth. Well-stored joints and dampers hold the fire—and the oven heat—for hours.

Let us show you the Kootenay.

Sold by J. M. SOBY

Claresholm Local News

The School of Agriculture will open on the 29th of this month.

Born, on October 12th, to Mr. and Mrs. Maurice Vail, a daughter.

A. E. Strange and family are leaving for a visit to the old country.

The I. O. O. E. will meet in Harrison Hall, on Tuesday, Oct. 28, at 4:30.

George Carney is moving his cattle to Nanaka for the winter where he has secured a supply of feed.

Mrs. J. Chabersworth left on Monday night for England to visit her mother for an indefinite period.

A meeting of the Red Cross will be held in Harrison Hall on Friday afternoon, October 31, at 3 o'clock.

Considering the stormy weather, a good crowd turned out for the orchestra dance on Wednesday night.

Nurse Matthews left on Saturday for Edmonton to attend a convention. She returned on Wednesday.

Miss Gable Strang left this week for Calgary where she will spend the winter perfecting her musical education.

A tale of a Teran rosebud blossoming on the Mexican border. "The Border Raiders," Rex, next Friday and Saturday.

Ralph Leppard went to Calgary on Friday to have an X-ray taken of his limb. On his return he expects to go to Rochester, Minnesota.

Principal Stephen, Prof. Hooper and Prof. Quail, of the School of Agriculture, went to Olds on Wednesday to attend a teachers' conference.

J. Walker and family were called to Warher on important business in connection with the bank. He will probably be away another week.

See Monroe Salisbury in his romantic role as "Rossignol" in the French-Canadian outline "The Man in the Moonlight," Rex, next Monday only.

Alvin Swanson arrived on Saturday from San Diego, California, where he is engaged in fruit farming. He farmed in this district for ten years and sold out two years ago. He will spend a few weeks visiting old friends.

Two of our local autoists were well up before the magistrate this week for exceeding the speed limit. The authorities have decided that some of the infractions of the motoring regulations must be stopped in the interest of the public safety.

Her father victimized by clever rogues, Ruth Hardy fights an unequal contest against the opium smugglers and bandits, but assisted by her cowboy friends she turns the tables on the enemy. See this in "The Border Raiders," next Friday and Saturday at the Rex.

There will be a meeting of the U. F. A. and U. F. W. A. in the I. O. O. F. Hall on Monday, Nov. 3rd, at 8 p. m. Mrs. Parly, president of the U. F. W. A. will give an address on "Women's Place in the New Physical Movement." Everybody welcome.

You lovers of startling plot-masters, acting of the "Man of the Year" of the screen, Monroe Salisbury--will hugely enjoy Salisbury's great work in "The Man in the Moonlight," a Canadian Northwest Mounted Police story with punches and thrills galore. Don't miss it.

The Rex management will try a new experiment next Wednesday when the doors of the theatre will be thrown open to the public without admission charges.

A collection will be taken during the evening to cover expenses. There will be four excellent reels, besides which there will be a special feature in the exhibition of war trophies that have not been shown before and the explanation that will be given will be of great interest. This will be the great attraction of the evening and the house should be crowded. A short address will be given by a special speaker in explanation of the 1919 Victory Loan.

More Bonds to buy--Finish the Fight.

Mr. and Mrs. Fred Thomas and family arrived in town from Wales on Thursday. They were twelve days coming from Liverpool. Mr. Thomas will look after Reese Thomas' farm during the latter's absence in the old country.

"The Man in the Moonlight," a colorful story of the French-Canadian North, comes to the Rex theater on Monday night only with Monroe Salisbury in the leading role. The photoplay is a Universal production and deals with the Royal Northwest Mounted Police.

Andrew Johnston, who for some time past has been manager of the Smedstad bowling alley, was found dead in his bed on Monday morning. He was past 60 years of age and lived in the rooming house on Railway street. The coroner was called from Macleod and found the cause of death to be heart failure. He considered an inquest unnecessary. The deceased had been in poor health for some time.

On October 13th Rex Walter Mitchell, son of Mr. and Mrs. William Mitchell, passed away. The little lad was only two years and five months old. Some weeks ago he swallowed a brass bolt which must have caused internal injuries. He was put under X-rays and everything possible was done for him, but he gradually wasted away. The funeral was held last Wednesday.

Rev. Thompson of the Nazarene Mission conducted the service at the house and gave an appropriate address. The service at the grave was conducted by the Women, the parents belonging to the Claresholm lodge. The bereaved family have the sympathy of the community in their loss.

BUSINESS LOCALS

For Sale--A Ford truck for sale cheap.--J. W. Hallett.

For Sale--Winter feed at Red Deer. Sage, Box 593 Red Deer.

Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

Proportional Representation

--No. 4

Opponents of the adoption of the Proportional Representation system in connection with parliamentary, legislative and municipal elections, to which attention has been devoted in this series of articles, urge:

1. It is too complicated for the voters to understand.

The following was the percentage of spoiled ballots in some elections recently held under the P.R. system: Sligo Municipal election: Votes cast, 2,251; spoiled ballots, 43. Of this number, 24 only were attributable to the new system, while 19 were declared invalid for other reasons. The percentage of spoiled papers due to the P.R. system was, therefore, just over 1 per cent. Edinburgh election: Votes cast, 124,107; invalid from all causes, 2,750; percentage of invalid votes, 2.2.

2. The method of counting the votes is too elaborate and the process takes too long.

The following comments from places where P.R. has been tried may be taken as indicative of feeling on the question:

(a) Glasgow: The returning officer in one day counted no fewer than 124,000 votes, spread over seven electoral divisions of the city.

(b) Calgary: It took 2½ times as long to count ballots as under the old system.

(c) Kalamazoo: It took 6½ hours to count 4,461 ballots.

(d) Of the election in Sligo, "The Champion" of that city says: "The system has justified its adoption. We saw it work; we saw its simplicity. We saw its unerring honesty to the voter, all through."

It is as easy as the old way; it is a big improvement, and it is absolutely fair.

It is very plain, and the voters, however, even if two or three days were consumed in counting the ballots, there are still over 30 days left in the year for the Government to function, and the new Parliament, Legislature or Council never takes office immediately.

More representative government, would not the time be well spent?

Again, is the ordinary voter concerned with the actual work of counting the ballots? Is not this done by appointed expert officials now? Could not the P.R. method be carried by such officials also, and possibly by even more expert men than are now selected as returning officers?

3. It divides the electorate into groups and fosters group feeling.

Is not group feeling more apt to be inflamed by lack of adequate representation? In cities where the ward system prevails, this same group or sectional feeling is cultivated, whereas under the ward system can be done away with while at the same time making adequate provision that minorities can secure their proportionate representation in the Council.

4. P.R. by giving complete representation to the people, will weaken government and make it unstable.

This criticism is not borne out by experience where P.R. has been tried. The strength and stability of a democratic executive depend upon two factors—its personnel and its ability to interpret the will of the people.

It tends to strengthen the personnel. M. Georges Loraud, the well-known Belgian M.P., states that under P.R. not only were all parties represented in Parliament, but "they were represented by their ablest men and leaders, whilst under the former electoral system prominent men passed off their lives outside the House. Parliamentary life has consequently been intensified in authority."

"Further," he adds, "has been intensified everywhere, has also been purified, the weapons employed being generally more courteous and more dignified."

Further, a democratic government will be stable if it interprets the will of the people correctly, and P.R., by making our public bodies completely representative of the people, places them in the hands of governments a more effective instrument for ascertaining what that will is. This explains why P.R. has rendered government in Belgium stable.

There are many other objections to the adoption of Proportional Representation, but these are the chief ones, and certainly they do not hold against the manifest fairness of the P.R. method, and all people in the election of their representatives.

As pointed out in the first of these articles, the principle of Proportional Representation has now been endorsed in Canada by the National Liberal Convention, the Great War Veterans Association, the Canadian Council of Agriculture, the Labor party, Social Service Councils, and numerous other reform organizations.

It was endorsed by the recent Industrial Conference at Ottawa, and the Government has announced its intention of having an extensive inquiry made with a view to its adoption in Federal Parliamentary elections.

People everywhere should, therefore, embrace every opportunity that presents itself to study the question and become as fully informed as possible as to its merits. It is a principle, a certainty that it will be adopted in Canada in the not distant future. It is to encourage the study that this series of articles has been written.

Worms, however generated, are found in the digestive tracts, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the intestinal intruders have been expelled. No better preparation for this purpose can be had than Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that have led to their existence.

Wool Brings Satisfaction Price

W. J. Stark, secretary of the Alberta Provincial Sheep Breeders' Association, received a check for \$65,763.20, being a remittance from the Canadian Co-operative Wool Growers Ltd. of Toronto, on account of the wool shipped there for sale by the local association, and which was contributed by 224 sheep owners in northern Alberta and six from British Columbia. The wool has not all been sold as yet, and this remittance is on the basis of 16 below the market price on each grade. When the balance of the wool is sold the contributors will be necessary to balance their accounts. The wool which has been sold has brought a very satisfactory price, and the fine medium combing has been sold at 28½ cents per lb., the fine medium clothing brought 65 cents.

Canadian Lumber In Britain

Prejudice Against Frame Houses Is Giving Way in Old Land

Louise, France, is in favour of wood houses in Britain has become so great that it is unlikely any local objections will have any weight against the location of the industry of health to over-riding existing restrictions.

A number of municipalities in Scotland have already taken steps to repeal restricting regulations. It is probable Scotland will lead Britain in wood construction.

It is understood Canadian parties are interested, and an estimate of the work has been submitted to the committee of health houses committee, stating that the buildings proposed by the ministry's architects would be a discredit to Canadian industry, but they will be in appearance, in design and will generally defeat popularity.

The raising of restrictions, however, will give Canadian house builders a vast market if they co-operate. They propose supplying Britain and Europe with materials for new houses. Complete enquiries as to Canadian houses have been received from France, Belgium, and Mediterranean countries, even as far as the Palestine. The Montreal Star understands that one European order for 20,000 mill-ton houses has already been booked. Enquiries show that prospective orders in the near future will be well up to \$100,000.

British Salvaging Ships Occasionally Divers and Surface Helpers Bring Up a German Submarine

The British are energetically at work on a certain extent the work of the U-boat. Already it is reported that ships to the value of \$250,000 have been raised by the Admiralty's salvage department.

In the case of colliders and some other vessels, the cargoes also are regained. Of course, costs of salvaging are heavy, but the profits are sufficient to warrant the effort.

No unusual methods are employed by the salvaging department. Steamers with the most modern pumps and powerful lifting lights are used to raise the wreck.

Occasionally the divers and the submarine are used. In this connection it is interesting to note that \$95,000 worth of bullion recently was taken from the wreck of the Laurent.

Occasionally the divers and the submarine are used. In this connection it is interesting to note that \$95,000 worth of bullion recently was taken from the wreck of the Laurent.

HOW TO "BE FIT" AT SIXTY

BY DR. LEE HERBERT SMITH.

As our boys "came marching home," they brought a certain red-blooded doctrine, and showed us the glory of a perfect body. They will show us how to "keep fit," even if we have passed middle life and are beyond the athletic stage.

For the tired business man, the man who feels the daily grind and the nightly fag, has meager appetite, headaches, nervous unresting, is gloomy, ending in a soggy brain, try the right way. Get out of bed, open the window, breathe deeply, exercise the army "setting-up" exercise or use dumb bells, until in a warm glow.

Before breakfast take hot water, and occasionally castor oil or a pleasant laxative made up of May-apple, alone, jalap, and sold by all druggists as Dr. Pierce's Pleasant Pellets.

As Prof. Strauss says, "The excretion of uric acid we are able to effect by exciting diuresis." Drink copiously of soft rain or distilled water, six or eight glasses per day, hot water before meals, and obtain Anurie Tablets, double strength, for 50 cents, at the nearest drug store and take them two times a day, or you may get a trial package sent 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Anurie" (anti-uric-acid) is the recent discovery of Dr. Pierce and is much more potent than lithia, for it will dissolve uric acid as hot tea dissolves sugar.

The Model Husband. A lot of fine girls that soldiers will make good husbands because they have learned to cook and sew on buttons, but others claim there is something that shouldn't be sneezed at—they have also learned to obey—Toronto Telegram.

PAINFUL NEURALGIA

Is Caused By Thin, Watery Blood and Cured By Enriching the Blood

Most people think of neuralgia as a pain in the head or in the face, but neuralgia may affect any nerve in the body. Different names are given to neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease are the same. The cause being the thinness of the blood, the blood is the same. The pain in neuralgia is caused by starved nerves.

According to previous investigations, there is a bed 180 feet deep, lying 480 feet under the surface. Professor Allan, of Alberta, was sent in by the provincial government a couple of months ago, and he reported very favorably.

It is not decided whether the government will mine salt, supposing everything is as expected, or whether it will turn the work over to a company.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Cure, the simplest and best cure offered to the public.

Canada's forests embrace 350,000 square miles of timber land, estimated to yield 1,033,370,000 cords of pulpwood.

don, in memory of Lord Kitchener. It will cost \$50,000.

A special chapel will shortly be installed in St. Paul's Cathedral, London.

Minard's Liniment Relieves Neuralgia.

Bela Kun to Face Trial

For Incitement to Murder, Robbery and Forgery

Bela Kun and his associates are to be prosecuted for incitement to murder, robbery and forgery.

This man's name would be Adolf Cohen, in English. Kun was heard of in Hungarian politics until last year. He is 37 years old and married. Balgo the war he was secretary of the local workers' union in Magyar, near Arad. He was arrested for stealing the union funds, \$20,000 kronen, and prosecuted.

This proceeding to pay back the money in instalments he was released. When the war started he was mobilized with the rest of the Hungarians. He either deserted or was taken prisoner by the Russians, for about one year ago he was in Petrograd, claiming as one of the brightest pupils of Lenin. Supplied by funds from the Bolshevik treasury, he returned to Hungary and organized a reign of terror, organized the radical mob, and entered the field against the Czechs, Poles and Rumanians.

A GREAT MUSICAL COMEDY COMING

Earl Carroll's "Make Yourself at Home" by a Company of 30 People

There is a perfect blending of colors in the costumes and settings of "Make Yourself at Home" that is a rare treat to the eye. Mr. Segal sought the best when he planned the staging of this timely comedy and allowed no expense to be spared in order to carry out his wishes.

Pretty music and a heavy chorus which will make your wife jealous are two of the features of "Make Yourself at Home," which comes to the Rex Theater Tuesday, Oct. 28.

The music is that of Earl Carroll, composer of "So Long Letty."

- 4 Short address on the reasons for the 1919 Victory Loan, by L. M. Roberts of Calgary.
- 5 Screen magazine film. Special interest to the ladies
- 6 Animated Weekly.

No charge for admission but a collector to defray expenses

A Business Proposition for Farmers

WE want you to size up Delco-Light as you would a new farm hand before you hired him.

Will Delco-Light do a good day's work on the farm every day? Will it cost much to keep? Will it earn money for you? Will you get along pleasantly with it?

Over 75,000 Delco-Light users have answered these questions for themselves and for you.

Delco-Light gives them all the electric light and power they need.

As a result—

They do chores before daylight or after dark, because houses and barns are well lighted.

They have stopped working small machines by hand—milling machine, churn, separator, grind stone, washing machine, fanning mill, water pump. They have running water wherever it is needed. They no longer hamper themselves with a lamp or lantern while working. There are no lamps to clean and fill. The ironing is done by electricity.

All this means time saved for every member of the farm family. It means more time spent on money-making work. On some farms it means doing away with hired help.

And the money now spent for coal oil will operate Delco-Light. Four times as much light from a gallon of coal oil is the record of Delco-Light over oil lamps. A few cents a day for all the electric light and power you can use.

Where there is a boy on the farm he looks after Delco-Light. A few minutes each week it all the attention it needs. Note these exclusive features of Delco-Light construction. They insure care-free, long-lasting service for you.

It is direct-connected. There are no belts to slip, break or be reduced.

It is self-protecting. Pressing down a lever starts the engine and it stops automatically when the batteries are charged.

It is self-cleaning. There is no water to carry, to freeze, or to foul away.

There is only one place to put oil. There are no grease cups.

A simple wiring relay regulates the fuel supply. There is no complicated fuel cut-off.

Ball and roller bearings cut down friction and increase efficiency.

Think your money is well spent.

You can see that on every point Delco-Light is a good business proposition. It is easy to use. It does a lot of work for you. It saves you time. It gives you fuel for money-saving work. It really looks like to operate. It is easy to look after.

BESIDE ALL THIS, Delco-Light gives you the wonderful comfort and pleasure of electric light in the home. Floods of clear, bright light at the pressing of a button. No matches, no danger. Lots of light. Pleasant evening happy mother and children. You cannot estimate the untold benefits of electricity until you try it.

Delco-Light users know all these things. They have written in letters telling us. We quote from some of these letters. We have printed some of them in a little folder, illustrated with photographs. We want you to get this book and read it. It will open your eyes to the possibilities for greater profit and greater comfort on the farm. Write your nearest distributor for a free copy.

(a) DELCO-LIGHT has made it possible for us to do without one man, whose wages and keep amounted to \$50.00—he would cost us more now.

By operating the above mentioned appliances at home, Mrs. Peck has been so relieved from her ordinary household duties that she is able to spend a great deal of her time in the home to care for the milk and we are now able to do all of our own work. Delco-Light has solved the labor help problem for us, and securing help nowadays is the farmers' greatest problem.

(b) Delco-Light saves us every day about one hour doing the chores around the farm—this would mean for my son and I about 700 hours a year at 20¢ per hour, which is figuring very low, about \$210.00 saved.

(c) The time and labor saved every week over the old way is as follows:

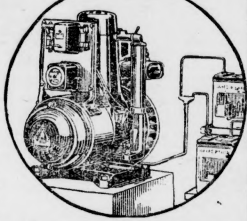

Cream Separator	6 hours
Washing Machine	2 "
Platting Machine	2 "
Pumping water	4 "
Vacuum Cleaner	4 "
Power Stand on Flat	4 "
Milk and various things	25 "
Total	25 " per week

(d) I save about 2 hours a week on the washing and 7 hours a week on separating. It saves me time about 4 hours a day on my tests. On churning I save 3 hours a week. I have saved 100 hours in a year on grinding my saws for my machine.

(e) We figure that it has saved us in way of fuel about \$100.00 in the last year. It has saved us \$100.00 during the last year. The plant runs very hot, getting up to 100° F. and \$2.00 per bushel for fuel. I have saved about \$2.00 a bushel in fuel and in the last year I have saved \$100.00 in fuel. I have saved \$100.00 in fuel. I have saved \$100.00 in fuel.

(f) Light by electricity, a house of fourteen rooms and one of two, 12' x 12', two barns and a workshop. I operate an automatic water pump, mounting a pressure of 40 pounds for the entire water supply of the place, including hose for watering the garden. We have a 3-horse power Delco-Light Power Stand, which is used for churning and working the butter, turning the grindstone and running the washing machine. I expect to attach it later to the cream separator.

(g) This plant is paying for itself in several

different ways. The fuel saving alone amounts to about \$400.00 per year, as follows:

Where we formerly used 55 gallons of gasoline per week, at 25¢ per gallon (\$13.75) to operate the milling machine and pump alone, we now use 35 gallons of kerosene per week at 14¢ per gallon (\$4.90), which is a net saving of \$8.85 per week, or \$460.00 per year.

Also, in addition to this, we are lighting four houses, horse barn and cow barn and doing the washing and ironing.

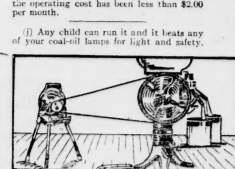

Another instance of saving is that we save the time of one man (4 hours a day) handling lanterns alone in our cow barn. We figure this a saving of 30¢ per hour, making \$1.20 per day, \$36.00 per month, or \$432.00 per year.

(h) I consider my purchase of a Delco-Light plant one of the best improvements I have made on my farm.

DUNCAN MARSHALL,
Minister of Agriculture, Alberta, Canada

(i) The plant has not given us a bit of trouble, there had been no repairs to date and the operating cost has been less than \$2.00 per month.

(j) Any child can run it and it heats any of your coal-oil lamps for light and safety.

Before accepting a Delco-Light I could not rest at night for fear of children lighting a match and, thereby, possibly setting fire to something. Now I sleep like a log because all that is necessary for the children to do is to press the button and the light is there, and it does not burn. It is much cheaper than candles and no danger of upsetting a lamp.
